<sup>1</sup> As a result of Advanced Technology Institute's GREEN commitment and to provide the best value in education resources, ATI has implemented textbook recycling and extensive use of electronic textbooks. Arrangements have been made with publishers to access their content at heavily discounted rates and make it available to you at the start of each term. You will have extended access to core course textbooks. A STUDENT MAY OPT OUT AND ACQUIRE TEXTBOOKS ON THEIR OWN. If you prefer to own your textbook, they are available for purchase from the ATI bookstore, or other retailers. Federal regulations require that you be allowed to acquire books and supplies from other sources. Please notify the financial assistance department if you wish to acquire your own textbooks, and your account will be credited \$50/semester. You will be responsible for obtaining all required textbooks.

<sup>2</sup> Most courses have online resources available, and many courses utilize mobile computing devices such as tablets and notebook PCs. If a mobile device is unintentionally damaged and not lost/stolen, it may be repaired one time while enrolled at ATI without additional charge. Additional incidents or loss will incur actual repair or replacement cost. Students will be charged for any resources not returned within two weeks of when a return is required and this fee will be pro-rated for persons scheduled for only a portion of a semester.
